WE Beg to intimate that, during the tember, the Price of IUE will be 24 Cents per ib. The smallest quantity sold 4

SAFE! pounds. As the demand at present is more than we can meet, and will be heavier during the above months, we have decided upon wide reputation of our Oil, certain this advance in price solely with the object producing power of our present machinery, and so endeavouring to give all consumers a share. As soon as we feel the demand falling off, the price will be reduced again

to the usual 2 Cents per pound. While thanking the Community for the support they have hitherto accorded us. we trust they will bear with the at this time in our efforts to meet the wants of all, as next year, with the addition of our new Machinery, there will be no lack of supplies, and consequently no necessity for going beyond the charge of 2 Cents per fb.

AND COMEDY COMPANY.

There are three musules to draw the mouth up, and only one to draw it down; which signifies that we are to laugh three times as much as we cry. Laughing promotes digestion, by jarring the internal organs. Every organ in the human system requires exercise to maintain it in health, hence laughing was intended to regulate the internal organs. Many people resort to medicine to restore that which might be remedied by a hearty high. Laughing equalizes the circulation and produces a general excitement of the system, highly conducive to health. As an instance of this, observe the rosy hus of a young lady's check elter indulging in a hearty hugh.

To-day's Advertisements.

Some people laugh in their sleeves, and some behind the door; these are smothered laughs, and are highly injurious to the system. There are many other laughs, such as the giggle, the snicker, the twist of the mouth, etc., etc., all of which are spurious and injurious. The true and genuine laugh, which counteracts the blues, ennus, and many other complaints prevalent amongst those who are exiles in the Gorgeous East, will be administered by

We even go so far as to say that "A Juror" was only discharging his duty to the public and to himself in The British steamer Thales reports: Left thus protesting against the respite of this man if he were conscientiously of opinion, as he unquestionably was, that this was not a fit case for a respite, and that the law for checking these most terrible of crimes had not been preperly upheld.

In penning our remarks on Tuesday it

From Sydney to at the respite of this man-the reasons for Cape Moreton experienced strong winds which neither the jury nor the public generally appear able to comprehendwhether or not His Excellency, in his excessive humanity, was inclined to treat the question of capital punishment in the same way as he has dealt with that of the next severest penalty that can be imposed on man, namely, flogging. and 13 cases Silk Piece Goods; from Beyond a few feeble administrations of Shanghai, 649 half-chests Tea, 438 bales the birch rod on the breeches of prisoners Silk, 18 cases Silk Piece Goods, and 10 who have become utterly intractable in cases Pongees. -For Continent: from Can- the gaol, no floggings have been permitted ton, 25 bales Silk, and 50 bales Waste to take place in the Colony since the arrival of Mr Hennessy; in fact, flogging has been practically abolished here, and His Excellency has nothesitated to step in between the judge and the prisoner, and rescue the latter from the lash. This policy may, we think, be fairly attributed to Mr Hennessy holding views opposed to the principle of flogging, because the Colonial Surgeon, while deprecating the flogging of Orientals with a cat on the back, absolutely recommended the extension of flog-Per Hailoong, at 11.80 a.m., on Friday, ging on the breech, and Mr Hennessy has on one or two occasions spoken with some amount of pride of the fact that he abolished this punishment in other colonies, with the administration of which he had been entrusted.

Flags fluttered everywhere, on shore and affoat; and the Commodore's flagship Victor Emanuel, besides being eloquent with streamers, stars and stripes, fired a salute in honour of the day which our American cousins are wont to celebrate. Among the more strikingly gay displays in the harbour were the U. S. S. Ranger and can vessel being nearly buried in bunting, while the English steamer presented an elegant and arched sweep of streamers from stem to stern. All Her Majesty's men of war were dressed, and the Commodore's suburban retreat, perched as it is on the crest of the Gap ridge, showed an upturned V. of particoloured flags on its tiny flagstaff. The U. S. Consulate was "gay" with flage and visitors and patriotic wishes; while the Ranger was also visited by many friends during the afternoon. LOSS OF THE BRITISH BAROUR KNIGHT OF SNOWDON.

PINDING OF THE COURT.

The following is the finding of the Court of Enquiry which sat to investigate into the. circumstances attending the loss of the above-named vessel :-

We find that the British barque Knightof Snowdon, Official No. 51,022, Charles kichardson, Master, number of whose Certificate of Competency (lost at the wreck) was 4075, was totally lost on a reef. (marked on the chart by which he was navigating) about four miles to the northward and westward of Cape Santiago, in the Island of Luzon, Philippine Group, on the night of the 12th of June, while on a voyage from Newcastle, New South Wales, to Manila, with a cergo of coal.

We find that the Master, Charles Richardson, conducted the navigation of his ship in a negligent manner, in not ascertaining the position at any time on the day of the wreck, by means of cross-bearings of the land, which was visible at the time. That he also shewed want of judgment in shaping a course from an assumed position. that would take his vessel in dangerous proximity to a coast, which, according to the chart he was navigating by, was imperfectly known.

We also find that want of care and attention was shown on the part of the Chief broken water would have been seen in sufficient time to prevent the loss of the

The Court therefore adjudge that the certificate of the Master be suspended for period of three months from this date, and suspended for a similar period. Given under our hands, this 27th day of

THE SHEK-O MURDER CASE. To the Editor of the "CHINA MAIL."

Hongkong, July 8 1878 FIR. -Although Jurors may think It scarcely worth the trouble, in the case of hinaman, to make a show of retiring and for the sake of deceasy to pretend that the question whether a Chinaman accused of murder shall be declared guilty or not deserves careful consideration, I put the question to you and through you to the public "how would the man have been treated, had he been an Englishman?"

Had the miserable fellow who has been sentenced to death been an Engishman. he would have been allowed an Attorney, weeks before the trial, to prepare his defence carefully, and at the trial every contradiction the principal witness against him involved berself in would have been brought forward in the strongest possible manner to discredit the value of her whole evidence. But here this poor man dragged out of jail, the jacket in which he was arrested, still soaked in blood, thrown over him, the preliminaries of the trial begin, and whilst the Barrister appointed for his defence is robing he has just five minutes to explain through Lam Atsung, and six others, chair coolies, an Interpreter what the Barrister happens were charged with assaulting one Lo Akan, to ask him in order to get up something a shoemaker, residing in the Canton like a defence. RATTLE THE BONES.

THE HORNEO CESSION OF TERRITORY.

The following extracts from the London correspondence of the Ceylon Observer form the latest utterances upon this subject and are of some interest !-

"I have several times named to you the impression which exists in official quarters that any attempt to give British official recognition and protection to the Borneo land scheme would involve this country in disputes and difficulties with the several foreign powers who have possession in that quarter of the world, and I tamed in my their places on opposite sides of the lists, last, the view taken of the concessions and went through the movines of a light,

in England against the so-called annexation forced upon us by circumstances and necessity, evoking much hostile comment—that our Government cannot afford to disregard the feelings which would almost certainly be expressed against governmental recognition of the new scheme. Everything seems to me to indicate the failure of the application to our Ministry, and I therefore trust residents in Ceylon who have it in contemplation, as I hear some have, to invest in the land obtained under the concessions, will listen to the advice of the high authority I sent you and wait for the result of that application before rashly embarking capital in the new enterprise."

"Being anxious to learn how matters were progressing with reference to the Borneo Land Scheme, in which I know many of your readers take a great interest, made some enquiries at the Colonial Office respecting it, and was told that, in consequence of the Governor of Labuan, Secretary of State for the Colonies, being also Consul General of Borneo, and, in that latter capacity, subject to the direction of the Foreign Office, any decision upon the question would have to rest with the latter department ; though, of course, the Secretary of State for the Colonies been consulted; and that it was more than probable that the decision of the Minister for Foreign affairs would be based upon the advice which he would receive from his colleague of the Colonies. From an independent source I learned that Sir Michael Hicks-Beach's decision had been practically come to, and that it was almost entirely in accord with the views of the gentleman whose statements made to me on thi subject I communicated to you in my letter of a few mails back. It is, therefore, I consider, almost certain that the British Government will decline to give to the scheme the assurance of its approval, recognition or active support; and, in that case, I do not see how British capital can be safely embarked in such an undertaking as is contemplated. The opposition which my friend considered likely to be evoked by the measure from foreign Governments has already shown itself both in the case of Spain and Holland, and the Spanish newspapers are writing strongly against the presumed action of our Government in the matter. It appears that, unfortunately, the Acting Governor of Labuan and Consul General for Borneo was present at signing of the concession, and although he asserts he was there only to watch the proceedings and in no way to express concurrence in them, still it is not recorded that he made any protest, and naturally, his presence has been interpreted by foreign Powers, and probably also by the Commissioners, as indicating his approval.

I hear that both Baron Overbeck and Mr Dent will arrive in England some time nexth month or early in July. I feel sure they must abandon the claim to sovereign bales. rights, or find the whole plan fall through. As a commercial enterprise alone, they are not likely to encounter opposition; but the Government will never consent to a step which would practically amount to annexation by this country."

With regard to the opposition of Holland to the scheme, which is alluded to in the above extract, the Amsterdam correspondent of the London and China Express states, that in the second chamber on the 20th May, the following interpellation took place:-

"Mr Lenting brought another matter forward. The papers told us-he saidthat negotiations had been opened between a certain Baron Von Overbeck and one of the Princes of Borneo to enable an English company to obtain possession of the entire north-western part of Borneo, just as Sir James Brooke organised a settlement on that island in 1858; he wished for information. As to the last-named matter, the Minister stated that what occurred in Borneo had nothing to do with our Government. It is no part of our dominion. It the settlement is successful it will be rather

> THE JAPANESE SILK SEASON. (Japan Mail.)

On the 20th June the first of the new

of Silk, consisting of four bales, arrived in Yokohama and was purchased by an English firm at \$49) per picul, equal at the exchange of 4/ to 17/9 per lb. in London, and at frs. 5.05 equal to frs. 49 per kilo. in Lyons, including all charges and an allowance of 11 per cent for loss of weight. The opening price for the season was therefore not \$525 as widely reported, but is nevertheless too high to serve as a criterion for the operations of native dealers in the up-country markets if they would be on the safe side, as this parcel consisted of Silk from the Hachoji district, being mixed and full in size, and of medium quality. As is usually the case in this market, buyers do not hesitate to pay a few more dollars than they would actually estimate the Sick to be worth, in order to secure the chance of shipping two or three bales as the first parcel of the season, but in a few days larger parcels of Joshiu Silk will be off red OAMPHOR, on this market, and we shall thei know the QUIUKSILVER, true figures on which buyers intend to base | SALTPETRE, their operations. Yesterday 7 b.les of Takasaki Hanks arrived, of which musters were shown. The Silk is reeled from Bank, on demand, 3/97 bivoltini cocoons, is mostly white, and on the whole does not differ much from last year's first arrivals, with the exception, perhaps, that it is a little fuller in size. The news from Europe is anything but favourable and holders will do well to dispose of their silk as it arrives, as the very considerable stocks of old silk as home and the good promise of the new crop cannot but have a most depressing effect upon the market. We now know for a fact that the Italian crop is a particularly good one, while it is estimated that China will this season yield an abundantly increased supply, it being safe to say that the export will reach 70,000 bales. Judging from the export from this country for the past two years and the reports from the interior of extensive additions to the mulberry plantations, together with most favourable accounts of the condition of the worms, which have thriven well in all parts except Koshiu, we may fully expect that the total exports this season will be over 22,000

THE PHONOGRAPH.

told that the discovery of the one must almost of necessity have produced the other. The instrument consists of a cylinder with a spiral groove around it, and upon this cylinder is wrapped a sheet of tinfoil. A cleckwork arrangement is made to revolve the cylinder, advancing it bodily at the same time, and at such a rate that the groove will always be under a point attached to a thin iron plate in tension, which is fixed in position. The point just touches the tinfoil; so that, on speaking near the iron plate, which is mounted so as to form a monthpiece, it is set into vibration, the consequence being that the point indents the foil; and, when the clockwork is running, a series of indents are male, none of which overlap each other. The Oct. groove allows of the indentations being 19, Oscar, made with perfect freedom, there being no Nov. resistance to the point under the tinfoil along its course. Hence the voice will have registered itself mechanically upon the Dec. tinfoil. To reproduce the voice from the tinfoil after it has had a sentence indented 25, G. B. 8, upon it is a very simple process. All that Jan. A famous company of professional fencers is necessary is to re-run the cylinder with 13, Elvetice, instance, the result will be that the plate produced will be that of the original voice.
